F0 is strategically hiring. Learn more about our current and future team: <https://formatnull.com/jobs>

Built for Retail Investors

FOR INVESTORS

Institutional-grade infrastructure, aligned incentives, and flexible mandate terms

Systematic Multi-Strategy

A diversified book of systematic strategies, engineered to perform across market regimes.

Real-Time Correlation Control

2027: Strategy correlations actively steered in real time across the fund — dialing up diversification when it matters.

Multi-Venue Execution

Best execution across centralized (CEX) and decentralized (DEX) venues wherever liquidity & edge reside.

Redundancy at Every Layer

In Progress: Fail-safes engineered into every layer of the technology topology — zero single point of failure.

FIAT or Stablecoin Allocations

Seamless capital onboarding; allocate directly in fiat currency or stablecoins based on treasury preference.

Independent Third-Party NAV

NAV struck independently by NAV Fund Services for fully transparent and verifiable investor reporting (Institutional Side).

3 Contract Models

- 2.5% FIX
- 2% FLEX
- DYNAMIC Contracts

Minimum Ticket

US\$5K

Standard commingled fund allocation

Institutional Options

From US\$100K

Qualified investors can allocate to F0's CIMA-registered Cayman fund, with a minimum initial subscription of US\$100,000

What we do | Systematic Trading Strategies

THE FUND

A portfolio of currently three complementary, low-correlation strategies, systematically reweighted across market regimes.

Liquidity Pool Yield / Dynamic Hedging

● LIVE FUND TESTING

F0 runs a systematic strategy providing liquidity to DeFi pools, earning swap fees on every trade to generate yield while managing impermanent loss through regime agnostic dynamic hedge. **APY ~ 35%**

Live Deployment 09/2026

Strat_ID: F0_01

Delta Neutral Funding Rate Arbitrage Strat

● DEVELOPMENT STAGE

F0 develops a delta-neutral strategy that arbitrages spot versus perpetuals and long/short spreads across exchanges, capturing yield with minimal market exposure

Go Live in 2027

Strat_ID: F0_04

Systematic Crypto Basis (Cash-and-Carry)

● STEADY STATE IN PRODUCTION

High capacity market-neutral BTC/ETH basis trade (long spot, short equal-notional perpetual) that earns the funding paid to shorts when leveraged long demand dominates. **Sharpe 4.6 | APY 9.5% | MDD 2.5%**

Live Deployment: 10 / 2026

Strat_ID: F0_02

Low Frequency Altcoin Spot Strategy

● STEADY STATE IN PRODUCTION

Directional unleveraged spot strategy in liquid altcoins that buys during extreme market dislocations and sells on price-volume momentum divergence, remaining in USD during downturns provides capital reallocation for other strategies .

Live with F0 after multiyear live testing by an external provider

Strat_ID: F0_03

Retail investment contracts in a nutshell

CONTRACTS

MINIMUM DEPOSIT

USD \$5,000

CONTRACT DURATION

365 Days Term

ACCEPTED CURRENCIES

USD, USDT, USDC

MONITORING & ACCESS

**Realtime KPI
Dashboard**

FIX PLAN

2.5% / month

Up to 34% peak APY

- Starts 1st of each month
- Interest is reinvested monthly
- Compounds continuously over full contract term
- Capital repaid with compounded interest at maturity (12 months)

FLEX PLAN

2.0% / month

Regular Payout Flexible Plan

- Starts 1st of each month
- Interest paid out monthly in Stablecoins or USD
- Direct payout to your bank account or crypto wallet

DYNAMIC PLAN

>40% APY

Higher Profit Potential

- No fixed monthly return guarantee
- Historically generates higher profit performance
- Performance fee of 35–50% applies on net profits
- Interest distributed quarterly

How it works for you

ONBOARDING

#1 *Invest capital with F0v*

After KYC/AML checks, qualified individual investors allocate through structured investment contracts with F0V, built for institutional-grade governance.

#2 *F0v deploys systematic trading strategies*

Capital is deployed across major crypto exchanges through **algorithmic**, partly **market-neutral trading strategies** executed by our institutional-grade trading infrastructure.

#3 *Investors receive performance-based returns*

Profits generated from trading activity are distributed to investors on monthly basis. Along with **transparent reporting, regular payouts, and in the works real-time performance monitoring.**

DASHBOARD | personalized and fund trade stats & docs

FIX plan 2.5% / month

Dashboard shows:

- Your invested capital by contract type
- Generated profits over time
- Document downloads
- Global fund health and performance statistics
- Dynamic strategy allocation for your investment

FLEX plan / 2% / month

Includes all features mentioned above, plus:

- **Flexible payouts:** Through the dashboard, investors can adjust the split between monthly payouts and reinvestment, with live projections of compounded returns and alerts for any early-withdrawal penalties. e.

DYNAMIC plan

Here we need a text

- Dashboard real time insights into portfolio performance
Go Live during Q1 2027
- All features from FIX and FLEX plans
- Quarterly payouts

Risk Management Framework

RISK MANAGEMENT

Independent risk monitoring across four dimensions — market, counterparty, technical and operational

Market Risk Controls

- Per-strategy drawdown hard-cap
- Portfolio diversification to ensure low correlation
- Position size limits per asset and venue
- Automatic halt on limit breach — manual restart only
- All metrics net of fees, annualised

Counterparty Risk

- Capital spread across multiple exchanges (DEX/CEX) and multiple strategies — no single-venue or strat concentration
- Daily position reconciliation against exchange records
- Exchange credit monitoring and exposure caps
- Multi-signature wallet architecture for on-chain assets

Technical Risk Controls

- Automated health monitoring with real-time diagnostics
- Redundant infrastructure & data centre failover
- Circuit breakers on anomalous signal behaviour
- Staged deployment — no direct-to-production pushes

Operational Safeguards

- Encrypted communications and daily encrypted backups
- Emergency trading suspension protocol (< 30 seconds)
- Quarterly disaster recovery testing
- Commercial banking-strength secrets hygiene

F0 tier one partner ecosystem for systematic multi strategy execution

Venues and Existing Partnerships

We've partnered with leading crypto exchanges and banks, with institutional capabilities for fiat and crypto on-/offramp
